

# Torrential Rains Temporarily Halt Drive

## Allies Consolidating Positions Main Front Advances Two Sectors

Counter Attacks Repulsed Except At Two Points Near Ypres—Enemy Advantage Offset By Progress At Zillebeke And Yser Canal—Losses Of Enemy So Far Extremely Heavy—Ground At Parts Covered With Dead—British Alone Have Captured 5,000 Prisoners, 4,000 In Ypres Salient.

(By Morning Bulletin Leased Wire)  
LONDON, Aug. 1.—A torrential rainfall and the resultant turning of the battlefield—already hard of negotiation at many points—into a veritable quagmire, almost halted during Wednesday the great allied offensive against the Germans in Flanders. For the most part the day was spent by the British and French troops in consolidating positions won in Tuesday's spectacular drive, or in putting down German counter attacks, made in endeavors to wrest from the antagonists their former positions. At two points near Ypres the Germans, using great masses of men, were successful in their counter attacks against the British, but this advantage was offset in the Zillebeke and Yser Canal sectors, where respectively the British and French troops advanced their lines.

Meanwhile the guns of the belligerents are continuing to roar all along the entire front in reciprocal bombardments preparatory to the recommencement of the infantry battle when the clouds lift and the rainfall ceases.

**Huns Losses Very Heavy.**  
The losses of the Germans in the fighting thus far have been extremely heavy, the ground at various parts being covered with the dead, some of which were the bodies of mere school boys and seemingly unfitted physically for the arduous trials the soldier in the present war must undergo. In addition the British alone have taken more than 5,000 prisoners—4,000 of them on the Ypres salient.

On the southern end of the front, in the region of the Aisne and in the Verdun sector, the Germans continue to carry out effective operations against General Petain's armies. Despite their heavy bombardment along the entire Aisne region, however, the French in a vigorous counter attack east of Cerny again have made progress and taken prisoners. On the other hand, the Germans northwest of Verdun in an attack were able to penetrate first line trench systems in the region between the Avoucourt wood and Hill 304.

**Russian Offensive.**  
Although the Austro-Germans continue to press the Russians in Galicia and Bukovina, having taken further positions from them along the Herodinka-Czerpowitz railway and north of the Dniester river, the Russians southeast of Tarnopol in the vicinity of Trembly have taken the offensive in an endeavor to prevent the northern end of their line in Galicia from being pushed farther toward the Russian frontier. Full details of the operations are lacking, but it is known that the Russians have been successful in capturing one village point.

On the northwestern frontier, of Romania the combined Russo-Romanian forces are keeping up their advantage against the Austrians and Germans. In this smash attack the enemy line between the Putna and Casin valleys they have penetrated to a depth of from ten to twelve miles and captured 98 guns and in the neighborhood of 4,500 prisoners.

**Gain Further Ground.**  
LONDON, Aug. 1.—Both British and French gained further ground in the fighting in the Ypres sector today, but the Germans by heavy counter attacks succeeded in recapturing the village of St. Julien and the village of Westhoek. According to the official report from British headquarters tonight, the number of Germans made prisoner was 5,000. The text of the statement reads: "Rain continued to fall throughout the day. "A successful operation today on our new battlefield, our line was advanced slightly in the neighborhood of the Zillebeke-Zandvoorde Road.

## Prisoners Tell of Tremendous Casualties by Heavy Gun Fire

(By Morning Bulletin Leased Wire)  
LONDON, Aug. 1.—(Via Reuter's Ottawa Agency)—The correspondent of Reuter's at British headquarters in Flanders telegraphed today: "Heavy rain continues with pitiless insistence. "The ground over which the main fighting is taking place is not good at the best, but at present, under a weeping sky with visibility shrouded about 1,000 yards, it is all but impossible for open campaigning. "The Germans are attempting some counter attacks, particularly in the by 'full speed ahead.' It was too where the position at the moment is indefinite. "Intense shelling. "Last evening there was an outbreak of intense shelling from a portion of the line further north. In the growing dusk the enemy was seen making forces for an attack. Our batteries opened upon them and the field of grey melted away. "The wind and heavy atmosphere being suitable, we loosed large instalments of gas near Moutain, with good results. "Our casualties yesterday were light, considering the magnitude of the fight. "What we pray for now is an improvement in the weather. The rain has all but ceased, the sky is growing perceptibly lighter and the guns are beginning to bark in greater volume. "At five o'clock this afternoon, Reuter's correspondent telegraphed: "Wide 'No Man's Land.' "A period of quiet has succeeded yesterday's advance against enemy positions. Again our tremendous bombardment left in many places formidable obstacles. We retired a few men from extreme points thereby creating a wide 'No Man's Land.' "Meanwhile, the consolidation of captured positions is proceeding despite the handicap of heavy rain. "Prisoners agree that our prolonged bombardment inflicted tremendous casualties, also that our battery work

## TROOPSHIP GROUNDS IN DENSE FOG

546 Returned Wounded Soldiers On Board Taken Off.

## STEAMERS AND TUGS PROMPT TO RESCUE

Weather Mild And Sea Calm—Patients Don't Suffer.

(By Morning Bulletin Leased Wire)  
CANADIAN ATLANTIC PORT, Aug. 1.—(Allowed by censor)—Wrapped in a dense fog which has been closing about the coast for several days, a ship from overseas went aground today and is still on the rocks. In her present position, the steamer is approximately seventy-five feet from the immense reddish grey boulders which at this point comprise all the shore line. The steamer appears to be in a serious position. At high tide tonight there was twenty-eight feet of water in number 2 hold and about ten feet in number 1. The big bow on board 546 returned wounded soldiers, besides the crew. Half a dozen steamers and tugs promptly responded to the call for aid and all on board were taken off in safety, the cot cases being removed first. The weather was mild and the sea calm so the patients suffered no great inconvenience. The vessel registers about 6,000 tons.

**Veteran Captain.**  
CANADIAN ATLANTIC PORT, Aug. 1.—Captain Wm. McNeill, a veteran of 25 years' service in the North Atlantic, was in command of the ship. The liner had been coming ahead dead slow since just before daylight. Shortly after ten o'clock she picked up one of the Halifax pilots. When the pilot went on the bridge more speed was given the ship. One of the ship's officers declares she was given full speed ahead. In about ten minutes dead ahead through the dense fog was seen the glimmer of land. Instantly the "stop" order was telegraphed to the engine room, followed by "full speed astern." It was too late. The headway of the ship was so great that she plunged headlong on the shore, her bow resting not 50 yards from the scanty grass that covers the gray rocks.

The bow of the steamer is resting on boulders which have penetrated her bottom. Her stern is in 25 or 30 feet of water. If calm weather prevails until temporary repairs can be effected and giant air compressors put into effective action she may be pulled off and saved. If an easterly or northeasterly wind of much force comes up the splendid liner is doomed.

**In Charge of Troops.**  
Lieut. Colonel David Donald, of Victoria, was the officer in charge of the troops of the ship. There were six other medical men on the staff: Captain H. V. Jeffs, M.C., adjutant, Toronto; Captain G. M. Davis, Welland, Ont.; Captain G. R. Jardine, Prince Edward Island; Captain A. W. Wakefield, Montreal; Captain G. R. Johnson, Regina; Captain J. S. Sutherland, Winnipeg. Among the fourteen nursing sisters were Sister Catherine Edwards, Montreal; Sister Mary Miller, Victoria; Sister Nancy Tupper, a niece of the late Sir Charles Tupper. The captain of the ship was Captain McLaren of Vancouver.

**HALIFAX, N. S., Aug. 1.**—Nine hundred civilians and over five hundred furloughed and invalided officers and men landed here this morning.

## AUSTRIA NOW SPOKEN OF AS A MEDIATOR

Count Cserin, Foreign Minister, Interprets Speech Of Lord Robert Cecil.

(By Morning Bulletin Leased Wire)  
LONDON, Aug. 1.—A despatch from Zurich to the Wireless Press says: "A semi-official Vienna despatch says that Count Cserin, the Hungarian foreign minister, read with great pleasure certain statements of Lord Robert Cecil, minister of blockade, in the house of commons, which he interpreted as meaning that England does not regard Austria as a real enemy. From this deduction it was drawn that there are no real obstacles to peace negotiations between Vienna and London. "The message adds that Count Cserin would be willing to act as a mediator between Berlin and London, and that he has noted that in France as well as England there is no direct hostility to Austria. "The Foreignerblatt replied that Germany not only would submit to, but even would accept joyfully, any attempt at peace through the medium of Austria.

**POLISH LEGIONS DISARMED.**  
COPENHAGEN, July 31.—A despatch from Berlin says the Polish Legions have been disarmed and interned and that rigorous measures have been taken in Poland to prevent disorders.

## MASKED MEN SEIZE WATCHMAN; STEAL 350 LBS. DYNAMITE

Daring Outrage Near Montreal—Stolen For Destructive Purpose Manager Thinks.

(By Morning Bulletin Leased Wire)  
MONTREAL, Aug. 1.—A party of masked men, speaking French, at about 1 o'clock this morning, held up the watchman at a quarry of Omareau & Company, at Rosemount, in the north end of this city, and at the point of a revolver forced him into a little office and then methodically set about removing 350 pounds of dynamite, 1,500 electric detonators and two boxes of fuses, according to information given the police later by the watchman, Georges Hevieux. The dynamite is believed to have been removed to a safe place in the city. No trace or clue has been found. Mr. Omareau, head of the company, thinks the dynamite must have been stolen for some evil or destructive purpose, and fears developments.

## M.P.'S BURNED IN EFFIGY ON CHAMP DE MARS

Blondin, Sevigny And Rainville—By Federation Of Labor Clubs, Montreal.

(By Morning Bulletin Leased Wire)  
MONTREAL, Aug. 1.—Hon. P. E. Blondin, Hon. Albert Sevigny and Deputy Speaker J. H. Rainville, M.P. for Chambly-Verchere, were burned in effigy on the Champ de Mars to-night by the Federation of Labor Clubs of Montreal, in the presence of three or four hundred people. President Gideon Martel said: "Let it be said from one end of the Dominion to the other that the workmen of Montreal, the most numerous class of the city, burned the effigies of those three men. Let it be known, so that it may be known that these are the men who betrayed not only their own people but all the people of Canada and that Blondin, Sevigny and Rainville are guilty to the English Canadians as well as to the French-Canadians. "Mr. Martel, who wanted a referendum and not conscription, also said: "We are ready to do our part for the Allies, but we are not ready to go to England or France, but we do not want conscription. We want to follow the advice of Joffre, who asked us to send food."

Claude MacDonnell Of Toronto And Oliver Pringle Of Ottawa.

(By Morning Bulletin Leased Wire)  
OTTAWA, Aug. 1.—Claude MacDonnell, for many years Conservative member for South Toronto and Oliver Pringle, the well-known Ottawa solicitor and parliamentary agent, were today made senators. They will take their places in the upper house tomorrow in time to vote on the second reading of the military service bill. Mr. Pringle is a member of the law firm of Pringle and Guthrie. The other member of the firm, Norman Guthrie, is a brother of Hugh Guthrie, M.P.

## WAR NOW ONE OF ECONOMIC ENDURANCE

So Says Admiral Jellicoe Discussing Submarine Menace.

## "BACILLI OF SEAS" MUST BE DESTROYED

Germany Has Staked Her All On Pirate Operations.

(By Morning Bulletin Leased Wire)  
LONDON, Aug. 1.—Admiral Sir John R. Jellicoe, first sea lord and chief of the naval staff, in an interview with the Associated Press today discussed the submarine menace and the naval situation at the end of the third year of the war. "You ask me to say something of the submarine menace," he began. "It is serious because at the allied armies, and civil populations are, in varying degrees, dependent on sea transport. But, viewed broadly, the recourse by the Germans to this form of piracy is encouraging. They did not adopt it until they had lost hope in the victory of their armies. They did not risk drawing the United States into the war and concentrating on themselves the loathing of all other neutral states until they were convinced that they could not float a keel on the world's seas and by legitimate means interfere with the growth of the military strength of the allies. "Changes Of Warfare. "For three years naval power has been in process of transition into military power. The Germans, in desperation, decided to embark upon ruthless submarine warfare in the confident belief that it would prove a fatal stroke. In February, according to their own confession, it was 'The best and only means of a speedy and victorious ending of the war.' "March, April, May, June and July have passed and their early hopes are still unaltered. The Germans have not mastered us, but we have not mastered the submarine. We have not yet discovered the effective antidote. But we have reduced the losses of merchant shipping. "There is no reason to doubt that the Germans have at sea lately a far larger number of submarines than in February and March, but, nevertheless, with the invaluable assistance which America has rendered we have prevented them from reaping their harvest. How long the Germans will live on hopes deferred I cannot say, but they must realize that the prophecy of February resting on official authority that the submarine was 'The best and only means of a speedy and victorious ending of the war' has not been fulfilled. "Demands Utmost Effort. "After a pause the admiral went on gravely: "Combating the submarines demands the utmost effort on the part of all the countries which have joined forces to defeat Germany. She has staked her all on the submarine and if we defeat it her last will be gone. The two urgent needs of the moment are more patrol ships for hunting down submarines and an increased output of merchant shipping, so that the losses suffered at sea may be made good. "This war has become one of economic endurance. With the powerful aid which the United States is rendering in making the naval blockade effective, Germany's condition must become worse week by week. She will hold out so long as there is the faintest hope of the success of the submarine warfare. Once this failure is demonstrated the German people, whatever may be the case with the government, will recognize that defeat stares them in the face. "It is therefore vitally important that every effort be concentrated on destroying what the prime minister, Mr. Lloyd-George, calls the 'bacilli of the seas.' We must push to defeat it, but in order to do so the energy of all the nations fighting Germany must be devoted to the work and to the rapid building of patrol ships and merchantmen. If that is done I have no doubt of the issue."

## 40,000 GREEKS STARVED TO DEATH BY BULGARIANS

Systematic Persecution Looking To The Extermination Of The Grecian Element.

(By Morning Bulletin Leased Wire)  
PARIS, Aug. 1.—Forty thousand Greeks have been starved to death in Eastern Macedonia since the Bulgarian occupation began, according to reports received by the Greek government, says a Havas dispatch from Athens under Tuesday's date. "The Bulgarians," adds the correspondent, "have carried on a systematic persecution of the Greek element in Macedonia looking to its extermination. They have inflicted most severe privations upon the Greeks, burdening them with military work and deporting them to Bulgarian localities."

## NON-COMPLIANCE WITH RULES OF RAILWAY COMMISSION CAUSE OF C.N.R. WRECK

Finding Of Coroner's Jury Who Investigated The Death Of Alexander Reginald Currie—Says Further That Employees Have Been In Habit Of Not Observing Board's Regulations.

That the said Alexander Reginald Currie came to his death by head-on railway collision at 9 p.m. on July 28th at a point between Mile 21 and 22 west of Edmonton on the Canadian Northern Railway, caused by employees of railroad company not strictly complying with the standard rules and regulations of the Railway Commission, which rules and regulations have so long been disregarded that it has become habitual for employees to so conduct themselves.

The foregoing was the decision arrived at by Coroner Forin's jury after they had returned to the courtroom late Wednesday afternoon with their verdict on Saturday's Canadian Northern Railway disaster. The coroner's inquest round the appearance in police court Thursday morning of Sylvester Harrington, train dispatcher, who admitted that he was the one who was negligent which sent five people to their death when the Alberta Beach special crashed into the first section of No. 2 eastbound on the evening of July 28.

**Harrington On Bail.**  
The operator is now at liberty on bail of \$10,000 which was furnished in two bonds of \$5,000 each within a few minutes after his arrest by provincial officers. He was taken in charge as he sat at the rear of the courtroom after he had given his testimony. International railway unions are backing a fund which will fight Harrington's case to the very end.

Harrington throughout his testimony appeared to be laboring under an intense nervous strain. After slight indisposition on first being called, he gave his evidence in a clear monotone. The witness's face was haggard and it was with apparent effort

## Aid To Be Given G.T.P. Under Govt. Control; May Be Nationalized

Sir Thomas White Outlines Scheme In House—Value Of Capitalization Of C.N.R. To Be Decided By Arbitration—Entire System, Including Branch Lines, Telegraphs, Express, Steamships, Hotels And Elevators To Become Asset Of Dominion—Management Vested In Board Appointed By Governor General-In-Council.

(By Morning Bulletin Leased Wire)  
OTTAWA, Aug. 1.—A step forward in public ownership was taken by the government today. Sir Thomas White announced that the government would take over the Canadian Northern Railway, lock, stock and barrel, and that further aid to the extent of \$7,500,000 would be given to the Grand Trunk Pacific, the government exercising control with a view to the possible ultimate nationalization of that undertaking also.

The people of Canada already have a forty million dollar interest in the Canadian Northern, which was capitalized at one hundred millions, so that the value of the sixty million dollars of capitalization remains to be decided. This question is to be referred to a board of three, one each to be nominated by the government and the railway, and the third to be agreed upon by the two, but should they fail to reach an agreement, the third arbitrator would be appointed by the senior judge of the exchequer court. Should they find themselves unable to reach a decision as to the value of the \$60,000,000 stock, the matter will be referred to the supreme court.

**Entire System.**  
The government takes over the whole Canadian Northern system, which includes branch lines, telegraphs, express, steamships, hotels and elevators. The telegraphs include the Great North Western Company, which was taken over by the Canadian Northern some time ago. The steamships include six vessels which are now operating on the Great Lakes and the Royal Line. However, the trans-Atlantic vessels of the Royal Line were taken over by the admiralty after the war began and the company has now a working arrangement with the Cunard company. It is understood that this working arrangement will continue with the government. The terminal elevators of the Canadian Northern include five at Port Arthur which have a capacity of ten million bushels.

**GERMANY'S WAR BILL GROWING EACH MONTH**  
Was At Rate Of 150,000,000 Pounds From February To May.

(By Morning Bulletin Leased Wire)  
LONDON, Aug. 1.—According to official statements, said Andrew Bonar Law, chancellor of the exchequer, in the house of commons today, the expenditure of the German government from February to May of this year, at the rate of £150,000,000 a month, as compared with £100,000,000 monthly for the first half of 1916. The figures given, the chancellor explained, showed that the German civil expenditures or loans to Germany's allies. The total expenditure of the French government for all purposes was £4,469,000,000 daily, the chancellor stated.

**FOR FOOD CONSERVATION**  
It is rumored that the women of Edmonton are going to have mass meetings shortly to take action in regard to food conservation. It is expected that His Hon. Lieut.-Gov. Brown will preside. The date of the meeting is not yet decided.

That the said Alexander Reginald Currie came to his death by head-on railway collision at 9 p.m. on July 28th at a point between Mile 21 and 22 west of Edmonton on the Canadian Northern Railway, caused by employees of railroad company not strictly complying with the standard rules and regulations of the Railway Commission, which rules and regulations have so long been disregarded that it has become habitual for employees to so conduct themselves.

After maintaining several times that he thought the crew had the presence of the accident "in mind" he finally asked leave to make a statement touching his part in the affair which would show a reason for his forgetfulness. This request was taken very seriously by the court and Coroner Forin warned Harrington that he had better reserve any statement he wished to make for a higher tribunal.

A. E. Campbell, solicitor for the railway brotherhoods, concurred in this opinion after at first upholding the witness in his request.

Coroner Forin's jury stated that they did not wish to oppose the giving of a statement as they did not fear the condemnation of any official "higher up."

**Good Construction.**  
John Kyle, master mechanic for the Canadian Northern, testified that the coaches smashed in the disaster were of good construction and had been overhauled at the Winnipeg shops a year ago. Chief Dispatcher James Thompson, on being queried regarding the raising of freight trains to what is known as trains of the first class, said that this practice was sometimes indulged in by dispatchers but that it was irregular. He admitted that he himself had been known to raise freights in dispatch to the first class, but that he had not done so within the last three years, since he came to Edmonton. Superintendent W. A. Brown of the Canadian Northern stated that any dispatcher who was caught at the practice would be subject to censure.

## LAST CHANCE TO REGISTER, THEN TO CAST VOTE

Assessor's Office Has Forms To Be Filled In By the Applicants.

A last chance for a municipal vote is now being afforded those who failed to register during the periods when the registration offices were open in the city.

City Assessor Walker has now compiled the first draft of the electors' list for this year, and six copies of the list have been posted in the following places: Civic Block, Public Library (north side), Owl Drug Store, corner 101st and Jasper Ave., Smith's Store, 1125 1/2 9th street, the South Side Post Office and the South Side Assessor's office. Eventually copies of the list will be placed in each of the different city polls.

Those who are qualified by age, residence, and by being British subjects, are thus entitled to the municipal vote, but have not yet registered or who find that their names have been omitted from the list, can now apply for inclusion.

Application can be made either in writing, addressed to City Assessor Walker, or else on forms which can be obtained by calling at the assessor's offices on either the north or south sides.

## CITY CYCLISTS MAY ORGANIZE A CLUB

A meeting of cyclists of the city is called for 8 p.m. Friday in the council chamber, Civic block, for the purpose of discussing the proposed cyclists' by-law and to discuss and formulate plans for a cyclists' organization if such is deemed advisable and in any case to arrange for the cyclists' wishes being considered in the passing of the by-law now before the city council.

## To The Belgians

It is hereby recalled that all Belgians born between the 30th June, 1876, and the 1st of July, 1895, must register for military service. By virtue of a proclamation of the 1st of May, 1917, more-over all Belgians born between the 30th June, 1895, and the 1st of January, 1899, are called upon to serve. Such Belgians must register before the 15th August, 1917, with the nearest Belgian Consul, who will furnish them with the proper registration form on application. Those who enlist with the Canadian Expeditionary Forces before the 15th of August, 1917, are exempt from registration.

## KITCHENER MYTH IS REVIVED BY LETTER TO EDMONTON LADY

Had Nephew On The Ill-Fated Hampshire Which Carried Field Marshal.

Considerable discussion has taken place during the past few days in the city as a result of a dispatch in the Bulletin telling of a report published in the London Post to the effect that Mrs. Parker, a sister of Lord Kitchener, had expressed the opinion that Britain's great military genius still lived and that he would some day return to English shores.

The story brings to mind the report in Edmonton a few weeks ago to the effect that Kitchener was a prisoner in the hands of the Germans, kept in mysterious seclusion. The story arose out of certain inferences in a letter received by a woman residing here who had a nephew on the ill-fated Hampshire, Kitchener's boat.

In German Prison Camp. These statements read in such a manner as to convey the idea that Britain's leader was alive and in Germany, that he had been taken prisoner when the Hampshire was sunk and that he was well and still in German hands.

Believes "K." is Alive. An interview was also published in a Calgary paper recently with T. Birnie, a Canadian who returned to that city from England a few weeks ago, and who stated that he had met a relative of a survivor of the Hampshire who is now a prisoner in the land of the Teutons and who believes that Kitchener still lives.

Mr. Birnie explained that this person, a young man who lived in the north of England, had been taken in hand by the British authorities and that afterward he had refused to discuss the subject for what reason no one knows, but that his statements had left the general opinion in his neighborhood that Kitchener lived and remained a prisoner.

## RETURNED SOLDIER TOUCHED BY WARMTH OF CITY RECEPTION

"Makes a Fellow Feel As If His Modest Efforts Were Appreciated."

"Well, this sure is one patriotic and appreciative city," remarked one of Edmonton's returned heroes as he was being driven from the station on his return from the fighting line after having served his empire. It was evident that he was greatly pleased and touched with the magnificent reception which he and his comrades received. He had travelled from Quebec with men coming home and had seen the receptions accorded at other cities to their men, and stated that nowhere along the line was there a demonstration which in his opinion was so touching as that accorded by the citizens of Edmonton, and said he: "It makes a fellow feel as if his modest efforts are appreciated by the people behind. We got a fine send-off when we went away, and we've had a fine welcome home."

President West, Manager Stark and Director Arthur Davies of the Exhibition board left Wednesday night to attend the Saskatoon exhibition.

## PLAN SENDING VEGETABLES TO NEEDY SPOTS

Co-Operative Effort Suggested For Distribution Of Surplus In Edmonton Area

Edmonton consumers will find garden produce on the city market nearly every day in the week, though Tuesdays, Thursdays and Saturdays are the three chief market days, while the exhibit of produce and the trade on Saturday is much better than on any market in Western Canada.

Wednesday's trade this week was the best for some time, there being seven gardeners from the city and suburbs with wagon loads of vegetables. Some came from as far as eight miles out.

Some of the producers were plentiful and the sellers had them done up in five pound sacks offered for 25 cents. One gardener offered new potatoes by the bushel at \$2.25. It was stated that the potatoes are going to be few in a hill but of good quality.

Duck eggs were sold early in the morning at 5 cents each. Some live ducks were offered at 40 cents each and dressed chickens at 70 cents.

Vegetables show a plump growth and all the gardeners were optimistic over the satisfactory conditions since the recent showers.

Some of the producers realize that the gardens in and around Edmonton could easily produce more than the consumers of the city can use though the early stuff so far meets with a ready sale.

It has been suggested that some organized effort be made to sell the surplus vegetables grown in and around Edmonton by some system of co-operative marketing in other cities where such products are as produced here are in keen demand at prices which would allow a profit over and above the transportation. No one gardener has enough stuff to make such a thing pay but a co-operative group could manage to ship by the carload.

In Calgary, the civic authorities are already considering the problem of storage for their surplus products. If the samples now shown on the market the "grown in Edmonton" vegetables will be hard to beat in both quantity and quality. Enquiries have already been made of the market superintendent regarding shipment to the less favored communities.

Chief Inspector Forster, of the liquor branch of the attorney general's department, received a cable this afternoon from the British war office, informing him that his son, Lieut. Ralph P. Forster, was admitted on July 30th to the Red Cross hospital at Letouquet, France, suffering from a shell wound in the left thigh. Lieut. Forster is a tank commander in the heavy branch of the machine gun section of the British army. He was one of the draft of boys from the University of Alberta, who left in March, 1916, to take officers' training in the imperial army. He has been in the tank service since December last, when he received his commission, and has been on active service in France

Baron Rhondha Says Compulsory Rationing not Essential.

"While we should not be too optimistic regarding the food situation, for we cannot tell what the morrow will bring, there is no fear at present that the Germans will force Britain to adopt compulsory rationing because of their submarine campaign."

Such is the statement which Baron Rhondha, Great Britain's new Food Controller, has made to the American press men in London. But Britain and her European Allies are dependent in the last analysis upon Canada and the United States for food. The Dominion must practice food economy if it is to be worthy of the men at the front. Every man, woman and child in Canada must practice thrift if the tremendous financial burden of the war is to be carried successfully. The National Service Board is urging you to invest in Government War Savings Certificates. By such investment you lend your money where it can best be used for war purposes. Every dollar is needed for victory. A-21.

## CONFERENCE TO BE HELD SAYS HENDERSON

Explains In British House Object Of His Mission To France.

(By Morning Bulletin Leased Wire)  
LONDON, Aug. 1.—A crowd in the house of commons was excited today by rumors that the cabinet had been considering the resignation of Arthur Henderson, member of the war council, which it was said had already been tendered.

Viscount Duncannon, Unionist member for Dover, moved the adjournment of the house for the purpose of calling up the question whether the government was acting constitutionally and in the national interest in permitting Mr. Henderson to accompany a pacifist mission, including James Ramsay MacDonald and George James Mardie, both members of parliament, to Paris. Mr. Bonar Law had affirmed in parliament that Mr. Henderson was acting only in his capacity of secretary of the Labor party, but asked Viscount Duncannon, since when could a minister doff his ministerial responsibilities with his hat?

The government must have tacitly consented, because it could have withheld the passports.

Viscount Duncannon demanded an explicit statement and declared that if Mr. Henderson had committed himself to a conference with the Germans the government must ask him to resign.

In a personal statement to the house Mr. Henderson denied that he had gone to France to discuss the war situation or that the mission intended, as alleged, to proceed to Italy. He regretted that judgment had not been postponed until he had been heard.

This is what really happened, according to the minister. "When he returned from Russia he heard that the United Socialists of France, representing a majority of the British delegates and including members of the French government, had invited Russian delegates to hasten to Paris to examine a new invitation to a new conference, and suggesting that some British delegates should accompany them to discuss the proposal and take the opportunity to talk over the proposed Socialist conference. He assumed there was no objection to the latter conference, which had the government's approval. Their visit was for the purpose of examining the invitation extended weeks before by the Dutch and Scandinavian committees presided over by H. Branting, whose pre-arranged opinions had never been disguised."

The invitation was also signed by representatives of the workmen's and soldiers' group and authorized by the most representative conference held in Russia since the revolution. He wanted to impress upon the house whether they liked or not, that it was decided to hold this conference.

## DARING RESCUE GIVES THRILL TO ONLOOKERS

R. Metzgar, Of Calgary, Stops Runaway Horses On High Level Bridge.

A real life thriller, as sensational as many staged for the movies, was enacted, impromptu, on the high level bridge on Wednesday at 2.30 p.m., when a serious and perhaps fatal accident was prevented in a most spectacular manner, typical of early western days. The following is the story told by the eyewitnesses:

The young lady who was saved from harm was Miss Dought and the athletic hero who accomplished her rescue in the nick of time was R. Metzgar, of Calgary, who is staying at the Cecil hotel. The accessories of the scene included an auto, a runaway team, the exciting complex noises of the street cars and railway trains dashed to her death as the bridge, the nervous horses, and the man on the saddle horse appearing as if by magic from around the bend where but for the rescue the lady might have met her death.

A Howell, of Red Deer, who had been visiting the city, was starting homeward with his auto. When he entered upon the high level bridge, he noticed that just ahead of him, also going south, a young lady, alone in a buggy, driving a spirited team, which became frightened at the bridge, and its odd noises, as his auto approached from the rear. The motorist fully expected to see the helpless young lady dashed to her death as the maddened runaways would sweep around the curve at the end of the bridge. He feared a catastrophe, but was powerless to render aid.

To his surprise, in less time than it takes to tell the story, the brave and heroic rescue was enacted, before his very eyes. Round the curve a man on a saddle horse appeared, the gallant gentleman wheeled his horse and tried to grab the bridle. He failed, but without a moment's loss of time, the plucky and active young man made a flying leap into the buggy, grabbed the lines, and stopped the frightened galloping horses within fifty feet of the curve and without the slightest damage to anything or anybody.

The lady was profuse in her thanks to the young man, who so gallantly came to her rescue. He quickly caught

## BOARD MEETING OF HIGHLANDS CHURCH

Reports Presented Of The Activities Of Congregation—Various Officials Elected.

The first meeting of the quarterly official board of the Highland Methodist church was held Tuesday evening in the church, the pastor, Rev. G. H. Cobboldick, in the chair.

The treasurer, H. J. Salgeon, presented the first quarterly report for the church year, the total receipts being \$573 and expenditure almost the same. The missionary fund treasure reported total receipts \$16.

The plan of work for the year was presented by the pastor. It is most comprehensive one and if carried out will mean work for a large number of the members. The first item was a "welcome week," about the middle of September, starting with the Sunday school rally. Following this would be the anniversary and thanksgiving week in October.

The following were elected representatives to the Sunday school committee of management: E. W. McHouse, Jas. Allerdice, H. L. Humphreys, H. J. Salgeon and Mrs. Magrath.

The following were elected a missionary committee: J. W. F. Dr. Atkinson, J. H. Fulton and Wells. L. S. Fowler was elected representative to the financial district meeting.

Rev. G. H. Cobboldick leaves Wednesday for Suba Beach, where he will spend his holidays.

Geo. J. Reany, district manager of the Mutual Life of Canada, has spent two weeks holidays. Mrs. V. will remain at the coast for some time.

Mr. and Mrs. S. G. Smith, of Toronto, are the guests of R. J. and M. Robinson, of 63rd street. Mrs. Smith is a sister of Mr. Robinson.

his saddle horse and all proceeded their separate journeys. The motorist later had a blow-out, but at first opportunity phoned Tom Butlin, for he thought the action of young man on the saddle horse worthy of public recognition.

## The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotics, is well known. Even in smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous disease, such as intractable nervous dyspepsia and lack of stay powers are a result of doing with opiates or narcotics to keep children in their infancy. The rule among physicians is that children should not receive opiates in the smallest doses for more than a day at a time, only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups or other narcotics to children by any but a physician cannot be too strongly deprecated, and the druggist should not be a party to it. Children who need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher. Genuine Castoria always bears the signature of Chas. H. Fletcher.

**Gown for Noon Wedding.**

To the Editor of Woman's Page:  
Dear Madam—Will you kindly advise me as to the proper attire for a noon wedding? What color gloves should be worn? How should my husband dress?

(Mrs.) F. S. J.

If you are simply invited to the church, a smart-looking suit and white gloves are quite dressy enough, and a man may wear a business suit, but if you are to attend the breakfast, a one-piece frock of some material such as georgette crepe or crepe de chine would be more appropriate, with a dressy hat and white gloves. If you have a lace or chiffon waist to go with your suit, this attire is permissible. A man should wear a cutaway coat and waistcoat to match, pin-striped trousers, gray gloves and a light cravat. It is permissible for a man to wear a sack suit if he is going back to his office before changing his clothes after the wedding.

I think you will find the following recipe satisfactory: Four cupsful sugar, two tablespoonsful cinnamon, one tablespoonful whole cloves, two cupsful of vinegar, watermelon rind. Pare the rind, cut it into two-inch squares and cook in boiling water until tender. Put the vinegar, sugar and spices (tied in a cheesecloth bag) in a preserving kettle. Boil the mixture ten minutes, then cook slowly for two hours until the syrup is thick. Add the melon rind and simmer for one hour. Pickled in sterilized jars.

**Pickled Red Cabbage.**

To the Editor of Woman's Page:  
Dear Madam—Please give me a recipe for pickling red cabbage and

oblige.  
To one good firm red cabbage use one quart of vinegar, one-half ounce of whole pepper, one-half ounce allspice. Remove the outer leaves of the cabbage, quarter it, remove the center stalk and cut each section across into very fine strips. Pile the shredded cabbage on a large dish, sprinkle liberally with salt and let it stand thus until the following day. Meanwhile boil the vinegar, pepper and spice together (the latter in a piece of muslin). Put the cabbage in a large enameled colander and when well drained put it into a large jar and pour in the vinegar. It will be fit for use in three or four days; if kept for any length of time it loses its crispness and color.

## CUPID'S COURT

WINSLOW-PETCH

At All Saints' Pro-Cathedral on Wednesday at 2 o'clock a mid-summer wedding of considerable interest was solemnized when the former daughter of Mr. and Mrs. A. H. Petch, 3907 106th street, became the bride of Lawrence W. Winslow, also of Edmonton. The ceremony was performed by Archdeacon Webb, assisted by Bishop Gray. The service was fully choral, Vernon Barker presiding at the organ. The bride was escorted by Otto Muller, supported by a groomsmen were members of All Saints' choir. There was a good attendance in their honor. There was quite a large congregation when the bride, preceded by the choir, walked up the aisle on the arm of her father, who gave her away. She was most becomingly gowned in a gray broadcloth tailored suit opening over a pink georgette crepe blouse embroidered in gray. A large pearl gray hat with pink touches was decidedly smart and a corsage bouquet of pink roses completed the tasteful toilette. Miss Marjorie Petch in midnight blue crepe de chine with hat to match, wearing a corsage bouquet of white roses, made a very pretty bridesmaid. Miss Joyce Petch, youngest sister of the bride, looked sweet in filmy white, carrying pink sweet peas and was a dainty flower girl. Otto Muller supported the groom. Mrs. Petch wore an extremely becoming gown of black Brussels net over satin with silver lace and black hat with touches of mauve-pink. She carried a corsage bouquet of mauve and pink sweet peas. The ushers were Alan Petch, brother of the bride, and Mr. and Mrs. Winslow. After the ceremony, the bride and groom were escorted to the home of the bride's parents, where the reception was held. A buffet luncheon was served from a table daintily arranged with white sweet peas and roses. The drawing room and hall were profusely decorated with pink sweet peas, ferns, and palms. The bride's travelling suit was navy blue serge opening over a dainty white blouse and a biscuit colored hat trimmed with a deep shade of violet. Mr. and Mrs. Winslow left at five o'clock on the G. T. P. for Fallis, where they will spend their honeymoon, and on their return will reside in Edmonton. The wedding gifts were many and very lovely. Cables of greeting were received from many friends in the old country.

## ON DIT

That New York reports a vogue for faille hats.

That old-fashioned silk or wool pompons are seen adorning many of the imported dresses.

That too many war parades have demoralized New York's gay messengers and a call is going forth for girls to take their places.

That Miss Mary MacDowell has arranged for the opening of an information bureau for drafted aliens in the stockyard district at which women speaking the prevailing languages of the district will preside.

That the fashion for the flat head necklaces, which was started in Paris by those made by the invalid soldiers, has reached America and some very pretty coloring and designs are seen.

# Male of Species Must Show Card Or Remain Single

New York, Aug. 1.—An order that applicants for marriage license here today be required to show their military registration cards was expected to put an end to the rush of men of conscription age to marry to escape service in the national army. Yesterday many admitted they were being married to evade the military draft and but few of the 327 men granted licenses were not of military age.

## SAVE FOOD, IF NOT, STARVE, SAYS HANNA

**Food Controller Issues Solemn Warning—Boys At Front Can't Suffer.**

Ottawa, Aug. 1.—Addressing a public meeting in the Russell theatre here Food Controller Hanna issued a solemn warning to the people of Canada that unless the country lined up for economy in food it would be faced with starvation this winter. He declared if all did their duty no one would starve, but if it became a question of hunger at home or at the front the boys in the trenches would not be allowed to suffer.

Mr. Hanna said he would waste no time in coaxing but would exercise the drastic powers bestowed upon him by the government. In regard to hotels, restaurants, etc., he said he would have an important announcement to the end of the week. To the young men he said the best way to serve their country was by eating their meals at the front. Mr. Hanna also announced that he would not hesitate to fix prices if necessary.

## Sidelights on the War

**The German Barbarians in A. D. 10.**

In connection with the third anniversary of the beginning of German hostilities against France, it is interesting to recall that the first great military victory gained by Germans was on this date, Aug. 2, in the year 10. A. D., when the Roman army of Publius Quintilius Varus was utterly defeated and wiped out by the German Barbarians led by Arminius. Under Augustus the frontiers of the Roman empire were extended to the upper Danube by Drusus and Tiberius, and Drusus also crossed the lower Rhine and penetrated to the banks of the Elbe. The Roman infant of Augustus was carried into the German territory conquered by Drusus, and he was carrying out this mission when he was suddenly attacked by an immense host under Arminius. His whole army, consisting of three legions, which had been cleverly drawn into an ambush by the German leader, a young chieftain of the Cherusci, was utterly destroyed. In despair, Varus put an end to his life. The news of the battle created consternation in Rome, giving rise to the famous lament of Augustus: "Varus, Varus, give me back my legions." After this victory northern Germany rose in revolt and the Rhine, a few years later the Roman general, Germanicus, massacred the Germans in two great battles and Varus was avenged.

# Dangerous Gas and Acids That Hurt The Stomach--Sour The Food Cause Dyspepsia, Indigestion

**Recommends A Safe Way To Treat Stomach Trouble At Home**

Many stomach sufferers who are always full of gas and whose stomachs burn with acid after nearly every meal think these things are the RESULT of indigestion when in reality they are the CAUSE.

It is just as foolish to give artificial digestives, such as peppermint, to a stomach full of gas and acid as it would be for a man who had slipped on a tack to rub liniment on his foot without removing the tack.

Some stomachs generate too much gas and acid. Gas distends the stomach walls causing a full, bloated oppressive feeling while the acid irritates and inflames the lining of the stomach. Naturally the food ferments and sours, digestion is often delayed and stomach misery is the result. Artificial diges-

tents will push this sour, fermenting mass into the intestines and so relieve the stomach pain but the acid still remains in the stomach to generate more gas and produce more trouble at the next meal.

If you are using digestive aids after meals drop them for a while and instead get a few 5-grain tablets of pure bisulphated magnesia from any druggist and take two with each meal. Bisulphated Magnesia does not digest food but will neutralize the excessive acid in your stomach, keep the food sweet and will drive the gas and acid right out of your body. As Magnesia is prepared in various forms be sure to get Bisulphated Magnesia for this purpose as it is not a laxative and in this refined form will not injure the stomach in any way.

Lloyd George Ignorant of What is Going On; Crisis is Looming.

London, Aug. 1.—The fact that a member of the cabinet, Arthur Henderson, might without portfolio in the war council, has gone on a mission to Paris with the pacifist, Ramsey MacDonald, member of parliament, George James Ward, chairman of the Labor party in the House of Commons, and Russian delegates has aroused great irritation among the members of parliament, and seems to threaten trouble in the government.

Another Conference.  
The purpose of the journey is to confer with French Socialists in regard to the proposed conference of allied Socialists at London and the subsequent international conference at Stockholm.  
The crux of the matter lies in the fact that Mr. Henderson since he returned from Petrograd reversed his attitude on the question of the British Labor party and Socialists meeting the German representatives at Stockholm and now advises them to rejoin the former resolution against joining the conference with enemy delegates.

Without Their Knowledge.  
The government has been closely questioned in the House of Commons in the last few days on the subject of Mr. Henderson's mission to Paris and the admission of Andrew Bonar Law, chancellor of the exchequer, that it was settled without the government's knowledge and that the government was ignorant of what he was doing in Paris has increased the general irritation.

Mr. Henderson's fellow members of the Labor party in the ministry, who are as ignorant as the members of the war cabinet of Mr. Henderson's move, have decided to await his return before acting.

Improved Crop Weather and Conditions in South Are Factors.

Winnipeg, Aug. 1.—Following the clearing up of July business there was a noticeable bearish tendency in the market today. Improved crop weather and southern market conditions showed an influence in the local situation. In view of the present trading restrictions, however, fairly good business was done for future delivery. October wheat was down again, but October and December oats remained fairly steady around yesterday's closing quotations, though fluctuations during the trading were inclined to be easier.

October flax, which opened five cents below yesterday and declined further during the session, rallied towards the close and gained 3c on yesterday's close.

A prominent eastern export firm was a good demand for low grade oats but the higher grades were not much sought for; prices were a little off. There was no demand for the better qualities of barley, but buyers were out for the lower classes. Wheat buyers were chiefly in evidence and prices remained steady.

Flax was steady.  
Winnipeg cash wheat closed unchanged. October closed 2 1/2c lower, December 1 1/2c lower, October flax closed 3c higher and December 3c up.

There was no official opening in the Winnipeg wheat market up to 10 o'clock this morning.

Oats opened 1/2c to 3/4c down for October at 95 1/2 to 96 1/2c, December was down 1/2c at 66.

Flax was 5c down for October at 320. Minneapolis wheat opened 4c down for September at 220. This was the only opening in the American market.

There were 287 cars inspected at Winnipeg out of which 73 were contract. The weather here was generally fair and clear. Rain is reported at Edmonton, Battledore, Swift Current, Moose Jaw, Regina, Saskatoon and Prince Albert. Winnipeg reports 18. Temperatures are generally colder.

## Adventures of Uncle Wiggily

Uncle Wiggily and the Big Rain.

Copyright, 1917, by McClure Newspaper Syndicate.

There was a big rain in Woodland, where Uncle Wiggily Longears, the rabbit gentleman, lived in a hollow stump bungalow with Nurse Jane Fuzzy Wuzzy, his muskrat lady housekeeper. It stormed for a week.

"And it doesn't seem to ever want to stop," spoke the bunny uncle as he stood looking out the window, with his pink, twinkling nose pressed against the glass. "Have we enough to eat, Nurse Jane?"

"Yes, for a little while longer. But in another day or so we'll need bread and sugar. I don't see how I am to get out, though, to go to the store after them."

"Make your mind easy about that, dear Miss Fuzzy Wuzzy," spoke the bunny uncle. "I'll go."

"But in this big rain you can't," said Nurse Jane. "You'd get soaking wet."

"Not in my rain coat, with my rubber boots on and an umbrella to keep dry my tall silk hat," said Uncle Wiggily.

So two days after that, when it was still raining hard, and there was no more bread or sugar left in the hollow stump bungalow, Uncle Wiggily, taking his pink, twinkling nose away from the window, said:

"Well, I'll go to the store, rain or no rain."

Away he started in his coat, rubber boots and umbrella, but until he got outside the bungalow he had no idea how hard it was raining. The big drops just pelted down, splashing even through the umbrella. But that was not the worst.

All over Woodland were big puddles of water, and after Uncle Wiggily had stepped in two or three of them, going in over the tops of his boots, he said:

"This will never do! I need a boat. I'll have to get a boat to go to the store."

Back he waded to his bungalow, soaking wet and while Nurse Jane was drying him out by the fire he said:

"Have we a boat anywhere around the bungalow, Miss Fuzzy Wuzzy?"

"Indeed we have not," she said. "You have an automobile and an airship, but no boat."

"Neither an airship nor an automobile is of much use in a flood and rain," said the bunny. "I need a boat and I guess I'll have to make one."

"Can you?" asked Nurse Jane.

"Indeed I can," answered Uncle Wiggily.

"How?" asked the muskrat lady.

"Out of paper," replied the bunny gentleman. "When I was a boy rabbit in school I learned to make paper boats. I'll make an extra large and strong one now, out of brown paper, and in that I'll go to the store."

So Uncle Wiggily, getting a big sheet of heavy brown paper, made the boat, first folding the paper into a soldier hat as you always do when you're turning out one of these canoes.

In a little while the boat was finished, and in it the rabbit gentleman started out once more through the big rain to go to the store.

He used Nurse Jane's wooden pudding spoon for a paddle. I mean the spoon was wooden, not the pudding.

But Uncle Wiggily had not gone very far before something happened. The water of the big puddles began to soak through the paper boat, and the bunny, seeing that it was leaking, quickly paddled back to the bungalow.

He reached the front steps only in time, for his paper boat seemed to melt like ice cream on a hot day, and all came apart.

"This will never do!" said Uncle Wiggily. "I can't go to the store in that kind of a paper boat. If I only had some paper that water would not wet."

"I have some of the very kind," said Nurse Jane.

"Where is it?" asked Uncle Wiggily.

"It's the waxed paper that comes wrapped around bread to keep it fresh," said the muskrat lady. "Water cannot go through waxed paper, and I have saved a lot."

"Good!" cried Uncle Wiggily. So he made another boat of waxed paper, and that did not sink. In it he started for the store, and half way there Jimmie Wibblewobble, the boy duck, who didn't mind rain or floods, met the rabbit gentleman, and pulled the waxed paper boat to the store and back again for him.

So Uncle Wiggily got the bread, sugar and other things to eat, and the next day the big rain stopped. But this shows you how learning to make paper boats is sometimes a good thing.

And if the honeysuckle vine doesn't forget to sweeten my coffee in the morning when it climbs up to play us, with the rambling rose, I'll tell you next about Uncle Wiggily and the dandelions.

The Remedy at Hand.

"The German doctor said he was suffering from a shortage of fat."

"Well, why don't they cook the Kaiser's goose?"

## THE TONIC THAT BRINGS HEALTH

"Fruit-a-tives" Builds Up The Whole System

Those who take "Fruit-a-tives" for the first time, are often astonished at the way it builds them up and makes them feel better all over. They may be taking "Fruit-a-tives" for some specific disease, as Constipation, Indigestion, Chronic Headaches or Neuralgia, Kidney or Bladder Trouble, Rheumatism or Pain in the Back. And they find when "Fruit-a-tives" has cured the disease, that they feel better and stronger in every way. This is due to the wonderful tonic properties of these famous tablets, made from fruit juices.

Glad When School Begins

Dear Uncle Tom—This is my first letter to your club. We are having vacation now. But I will be glad when school starts again. We are getting a new teacher, but I do hope she will be as good as the one I had last year. I have two sisters who I saw Miss Stinson go up in her aeroplane and I saw the elephant perform and I thought it was fine. I have been picking berries. We have a few quarts, but we want to try and get a few more. Mother is going to let us go in town for a few days before school starts again. Well, I must close now and I hope you will send me a badge. With love, GRACE KNAPP.

Winterburn, July 24.

Like Stories

Dear Uncle Tom—This is my first letter to your club. I read the letters in the Bulletin and I like them very much so I thought I would join your club too. We are soon going to make a new house for the school. Some days it is very hot. I think I will close for my letter is getting long. I will write more next time. LOU ANN DRESSLER.

Mundare, July 30.

Has Eleven Geese

Dear Uncle Tom—This is my second letter to the Edmonton Bulletin. I got my badge and I think it is very pretty. We have eleven geese. We raised seven of them this year and one last year and we bought three from a school starts again. Well, I must close now and I hope you will send me a badge. With love, MARY M. CARMICHAEL.

Today's Anniversaries

The death of William II. (Rufus) of England occurred on Aug. 2, in the year 1100. He was killed by an arrow. He was an able ruler, possessed of vigor and firm decision. He acquired great wealth and purchased two French provinces. He was the founder of the Angevin Empire. He was a peace of religion was signed at Paris, on the Danube, on Aug. 2, 1563, between the confederates under Maurice of Saxony and the Emperor Charles V. This event established the Protestant church in Germany. On this date in 1703, the battle of Blenheim, in Bavaria, was fought between the English, under the Duke of Marlborough, and the Austrians, under Prince Eugene, on the one side, and the French and Bavarians, on the other. On Aug. 2, 1791, Margaret Nicholson, supposing herself to be queen of England, made an attempt on the life of George III. This was a mad woman, and she was afterwards confined in a lunatic asylum. On this date in 1793, Marie Antoinette, queen of France, and daughter of the king, was taken from the temple of Liberty and guillotined. She was in prison during the night and removed to an underground cell. As a favor, the leaders of the French Revolution permitted her to take under her arm a small bundle of clothing. It was on this day, 1816, that the convention was held between representatives of Great Britain, Prussia, Austria and Russia, who declared Napoleon to be a prisoner of the Allies, and entrusted his custody especially to Great Britain.

NEW SUCCESSES FOR OUR TROOPS IN EAST AFRICA

Germans Retreat After Sharp Fight With the Advancing British.

London, Aug. 1.—British troops have driven the Germans from their positions on the Lugungu River in German East Africa, N.S.A. says. The British are pushing forward in the Kilwa region, says an official statement issued today by the British war office. The text reads:

"East Africa: After sharp fighting the enemy has been driven with loss from his positions on the Lugungu river and at Ntula."

"In the Kilwa area a heavy rainfall checked out advance for some days after the successful action at Narok."

SGT. DUNCAN MACNEIL OF THE CANADIANS

Sergeant Duncan MacNeil, of the Canadian Expeditionary Force, writing from Europe, this home address is 116 Pleasant-street, Halifax, N.S.A. says:

"For six years I suffered from frequent attacks of dyspepsia, often being in bed for days at a time. When the war broke out I joined the Expeditionary Force and came to England. I had not been long there however, when my old trouble returned, and I had to go to hospital. While in hospital a friend told me of Dr. Cassell's Tablets, and I decided to try them. The first box brought such pronounced relief that I continued the treatment. To make a long story short, a complete cure was effected."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address: Harold F. Ritchie &amp; Co., Ltd., 10 McCull-st., Toronto.
